SUMMARY

Experienced software developer with 3 years in various technologies like React, Express, Salesforce Commerce Cloud Magento, and Python. Collaborative, adept at working with complex projects and meeting crucial deadlines.

EDUCATION

George Brown College, Toronto, Ontario   **Jan 2023 - Dec 2023**

Post Graduation Certification Mobile Application Development

- **Coursework**: Web Development, Android development, iOS development, Cross-platform development, and mobile application strategy

Fr. Conceicao Rodrigues Institute of Technology, Mumbai University, Vashi   **May 2013 - May 2017**

Bachelor of Mechanical Engineering

- **Coursework**: Engineering Mathematics**,** Applied Physics**,** Computer Programming, Fluid Mechanics, Engineering Material, Mechatronics

EXPERIENCE

Senior Software Engineer Apexon | Mumbai, India   **April 2022 – Dec 2022**

- Spearheaded the development of giftwrap feature in 5 days, including unit testing, using technologies such as JQuery, ISML, CSS, JSON, and Express.js.
- Independently learned VBA and automated data transfers, slashing processing time from 3 hours to 2-3 minutes using VBA, Python, and Selenium.
- Led UI enhancements, addressing 30 e-commerce bugs using React, CSS, HTML, and Express.js
- Implemented RESTful Loqate's Address verification API, enhancing shipping page with Less, HTML, Express.js, and React.js.
- Enhanced e-commerce SEO performance by implementing schema, meta tag enhancements, and URL optimization, collaborating with SEO experts, resulting in a 40% increase in organic traffic.

Software Engineer Apexon | Mumbai, India   **Jan 2020- April 2022**

- Implemented Google Tag Manager and Analytics with PHP and JS, enhancing website tracking.
- Resolved e-commerce site issues on PLP, PDP, and payment pages using JS and PHP.
- Tackled regression issues, stabilizing an e-commerce site with React, Nodejs, HTML, and CSS.
- Integrated third-party RESTful API using ReactJs & Python, optimizing checkout and GraphQL schema.
- Developed technical documents and collaborated on Confluence for knowledge sharing.

PROJECTS

- **Rental App for Cars (ReactNative and Firestore):** Developed an app allowing owners to list vehicles and renters to book them.
- **Movie Ticket Booking Website (MongoDB and ExpressJs):** Created a website to book tickets with payment functionality.
- **Locate nearby parks App(Kotlin, Swift(Xcode) and FireStore):** Designed an app for easy display and favoring of nearby parks.
- **BlackJack Game (Python):** Developed a Python-based Blackjack game using object-oriented programming and randomization.

EXTRACURRICULAR ACTIVITIES

George Brown College

- Academic Support Staff - Advised students on academic challenges and rights and raised awareness by in class presentations.

Fr. Conceicao Rodrigues Technology

- Led cultural event at inter-collegiate festival ETAMAX 2014 and played violin and guitar in a band.

TECHNICAL SKILLS

Technologies: JavaScript, Typescript, Python, PHP, Kotlin, C, KnockoutJs, JQuery, PHP, HTML, CSS (Responsive UI), SQL, GraphQL, MySQL, PostgreSQL, MongoDB, and Firebase

Frameworks and Libraries: Salesforce Commerce Cloud, Magento, ReactJs, Redux, ExpressJs, NodeJs, Pandas & Scikit

QA Skills: Performance Testing, Regression Testing, Automated Testing, Integrity Testing

Version Control and Other Tools : Git, GitHub, GitLab, Bitbucket, Jira, Jenkins and Docker
